Frequency	annually
Website	<a href="http://www.iranconmin.de">www.iranconmin.de</a>

**IranConMin 2019 – 25 years of success**

IranConMin, the Iranian trade fair for construction and mining, can look back on 25 years of success. Since that, IranConMin has been the biggest and most important trade fair for its target sector, which brings together international exhibitors with the most important decision makers and experts in Iran.

The last IranConMin, which took place in November 2018 at the Tehran Permanent Fairground, drew in about 15.000 visitors and around 200 exhibitors from eight countries. Germany, China and Poland each had their own pavilion, where companies from the respective country were present at a joint stand. The Iran Mining Conference took place at the same time as the trade fair, where the aim was to encourage an exchange of knowledge between mining experts.

Despite the difficult situation at present, the majority of the international exhibitors rated laste year's IranConMin as good to very good, and praised the high quality of visitor contacts in particular. The majority of them already plan to take part again this year – in some cases on a bigger scale to bolster their activities in Iran with a local presence.

Join the IranConMin and benefit from the unique procreative synergy of industry, politics and research.

**Whom will you meet at IranConMin 2019?**

Experts and decision makers from the following sectors:

- Housing and urban development
- Building and construction
- Road and bridge construction
